Research has it that “The tissues paper sector has boomed over the last few years. With a move to more luxurious tissue paper and ultra-absorbent paper towels the industry has been able to increase the tissue prices and create new brands to retain consumers. Tissue can be made both from virgin and recycled paper pulp.”

Our focus is therefore of five major types of tissue papers namely;

- Bathroom Tissue
- Facial Tissue
- Paper Towel
- Paper Napkin
- Specialty and Wrapping Tissue.
